STOCKMEIER Chemie

We stand for strong connections

The STOCKMEIER Group, headquartered in Bielefeld, is a third generation family owned company and stands for the reliable supply of chemical products worldwide.

We have been dealing with chemistry and services since 1920. We develop and produce industrial and institutional detergents and disinfectants and support our customers far

beyond the classic lines.

In the case of individual requirements, our highly qualified employees will find customized solutions to complex challenges.

It is our goal to support our customers in the implementation of an efficient hygiene management in their company.

The STOCKMEIER hygiene program offers...

- professional, customer-orientated advice about chemical and hygiene management
- creation of hygiene concepts
- supply of highly effective cleaning and disinfection products
- regular customer support and optimisation of your application by our application technicians
- process analysis
- planning, installation and maintenance of foam and dosing technology
- staff and product training
- process-independent expertise and direct connection to other chemical applications in operation

CIP Cleaning

Alkaline Cleaners

Lerapur® M-CIP

High alkaline detergent

- especially designed for CIP in dairies
- surfactant-free, non-foaming
- excellent water hardness complexing properties
- EDTA and NTA-free

PU: 25 kg can, 280 kg drum, 650 kg + 1200 kg containers

Lerapur® CIP-BL

High alkaline detergent

- meets the requirements for ecological food processing
- increased cleaning effect with potassium hydroxide
- very strong dissolving power
- EDTA, NTA and P- free

PU: 28 kg can, 280 kg drum, 1200 kg container

Lerapur® T 283

Alkaline detergent

- effortlessly removes deposits
- high complexing and dissolving properties
- contains surfactant, non foaming

PU: 25 kg can, 260 kg drum, 750 kg + 1200 kg containers

Lerapur® C 178

Alkaline-chlorinated detergent

- efficiently removes organic dirt deposits
- surfactant-free
- non foaming
- contains chlorine
- easy to rinse

PU: 22 kg can, 220 kg drum, 600 kg + 1200 kg containers

Acid Cleaners

Leracid® 169

Cleaning product based on nitric acid

- removes mineral deposits like limescale etc.
- build-in inhibitor prevents nitrous gases
- highly effective from room temperature till 70°C

PU: 25 kg can, 250 kg drum, 650 kg + 1200 kg containers

Leracid® 165

Cleaning agent based on phosphoric acid

- removes mineral deposits like limescale etc.
- also suitable for high cleaning temperatures >100°C
- contains surfactant, non foaming

PU: 25 kg can, 250 kg drum, 1200 kg container

Leracid® MSW-P

Cleaning product based on phosphoric acid

- removes organic and anorganic deposits
- contains foam inhibitor
- single phase cleaner

PU: 25 kg can, 250 kg drum, 750 kg + 1200 kg containers

Leracid® ASC

Cleaning product based on organic acids

- N- and P-free
- excellent wetting properties
- extended lifetime

PU: 25 kg can, 250 kg drum, 1200 kg container

National Science Foundation (NSF International is an American product testing, inspection and certification organization)

Booster for Alkaline Cleaning Solutions

Leraplex® liquid

Additive for alkaline cleaning solutions

- high efficiency against all kinds of dirt
- suitable for single phase cleaning
- excellent milkstone and limescale complexing properties

PU: 25 kg can, 220 kg drum, 1000 kg container

Leraplex® KRD

Additive for alkaline cleaning solutions

- highly efficient surfactant combination
- foam absorbing, complexing properties
- EDTA, NTA and P-free

PU: 20 kg can, 200 kg drum, 1000 kg container

Lerasept® O

Oxidative cleaning booster based on hydrogen peroxide

- extensive cleaning power
- reduces cleaning times
- contains foam inhibitor

PU: 20 kg can, 200 kg drum, 650 kg + 1000 kg containers

Lerapur® SDK 60

Anti-foam agent for alkaline and acid cleaning solutions

- temperature-independent
- supports cleaning through an efficient combination of surfactants
- easy to rinse

PU: 20 kg can, 200 kg drum, 600 kg container

Disinfectants*

Lerasept® Spezial

Disinfectant based on 5% peracetic acid

- wide range of biocidal efficiency
- fast acting
- readily biodegradable

PU: 23 kg can, 220 kg drum, 1100 kg container

Lerasept® Forte

Disinfectant based on 15% peracetic acid

- wide range of biocidal efficiency
- fast acting
- readily biodegradable

PU: 23 kg can, 220 kg drum, 1100 kg container

Lerasept® Spezial LF

Disinfectant based on peracetic acid

- dosing and control by conductivity
- fast acting, safe and efficient
- removes light mineral deposits

PU: 24 kg can, 230 kg drum, 1100 kg container

Lerasept® FOD 35

Disinfectant based on hydrogen peroxide

- quickly and completely biodegradable
- fogging possible
- removes biofilms

PU: 20 kg can, 200 kg drum, 1000 kg container

Industrieverband Hygiene & Oberfläche = German Industry Association for Hygiene and Surfaces

National Science Foundation (NSF International is an American product testing, inspection and certification organization)

Lerasept® FP 408

Surface disinfectant based on alcohol

- fast acting
- evaporates residue-free
- HALAL certified

PU: 10 L can, 750 ml spray bottle

Lerasept® L 420

Mild alkaline disinfectant based on QAC

- efficient cleaner and disinfectant
- soft metal safe
- suitable for foam applications

PU: 10 kg, 20 kg can, 220 kg drum, 1000 kg container

Lerades® CIP 601

Alkaline cleaning and disinfecting agent

- cleans and disinfects in one step
- contains chlorine
- surfactant-free, foam-free

PU: 22 kg can, 220 kg drum, 1200 kg container

Lerades® CM 401

Disinfectant based on sodium hypochlorite

- wide spectrum of efficiency
- foam-free

PU: 24 kg can, 250 kg drum, 1200 kg container

* USE BIOCIDES WITH CARE

ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.

Mold and Crate Washing

Leracid® KFR

- Special acid cleaner based on organic acid
- especially designed for cleaning cheese molds
 - single phase cleaner
 - environmentally friendly

PU: 25 kg can, 250 kg drum, 650 kg + 1200 kg containers

Leracid® MSW-P

- Acid cleaner based on phosphoric acid
- removes mineral and organic deposits
 - anti-foam effect, even in high turbulence
 - single phase cleaner

PU: 25 kg can, 250 kg drum, 1200 kg container

Lerapur® 23

- Alkaline mold and hoard cleaner
- highly efficient against organic dirt deposits
 - EDTA and NTA-free

PU: 26 kg can, 270 kg drum

Leratens® ES 160

- Defoamer based on surfactants
- application temperatures up to 80°C
 - silicone-free

PU: 20 kg can, 200 kg drum, 600 kg container

Butter Machines

Lerades® CIP 600*

- Alkaline cleaning and disinfection agent
- provides smooth surface finish
 - highly efficient against fat and proteins
 - suitable for aluminium

PU: 24 kg can, 250 kg drum, 780 kg container

Lerabild® 1273

- Alkaline cleaner
- chlorine free
 - provides smooth surface finish
 - suitable for aluminium

PU: 25 kg can, 250 kg drum, 1200 kg container

Industrieverband Hygiene & Oberfläche = German Industry Association for Hygiene and Surfaces

Foam Cleaning and Disinfection*

Alkaline

Lerapur® RS

Alkaline foam cleaner

- high cleaning power
- extensive foam stability
- easy to rinse

PU: 20 kg can, 200 kg drum, 1000 kg container

Lerapur® RHE 131 Premium

Strong alkaline foam cleaner

- smoking chamber cleaner
- extensive foam stability
- removes stubborn organic dirt

PU: 25 kg can, 270 kg drum, 1200 kg container

Lerapur® ASR

Mild alkaline foam cleaning agent

- suitable for sensitive surfaces
- soft metal safe
- especially developed for cardboard packaging

PU: 20 kg can, 200 kg drum, 1100 kg container

Lerasept® AC*

Mild alkaline foam cleaning and disinfection agent

- biocidal active ingredient is diamine
- high material compatibility
- fast and easy to rinse

PU: 20 kg can, 200 kg drum, 640 kg + 1000 kg containers

Lerades® CSR 501*

Alkaline chlorinated foam cleaning and disinfection agent

- excellent cleaning and disinfection in one step
- strong antimicrobial effect
- strong foaming

PU: 22 kg can, 220 kg drum, 720 kg + 1100 kg containers

Acid

Leracid® AL 202

Strong acid foam cleaning agent based on mineral acids

- efficiently removes limescale deposits, rust stains, etc.
- corrosion inhibitor

PU: 12 kg, 24 kg can, 250 kg drum, 780 kg + 1200 kg containers

Leracid® RSC 215

Foam cleaning agent based on citric acid

- N and P-free
- high material compatibility
- leaves visible shine after cleaning

PU: 23 kg can, 220 kg drum

Leracid® 288 SR

Acid foam cleaner based on phosphoric acid

- effective removal of mineral and organic dirt
- distinctive foam

PU: 25 kg can, 240 kg drum, 1200 kg container

Lerasept® Spezial SR 415*

Foam disinfectant based on peracetic acid

- excellent disinfecting properties
- environmentally friendly

PU: 20 kg can, 205 kg drum

Industrieverband Hygiene & Oberfläche = German Industry Association for Hygiene and Surfaces

National Science Foundation (NSF International is an American product testing, inspection and certification organization)

Maintenance and Vehicle Cleaning

Clenol® HNR

Neutral detergent

- fragrance-free
- self drying
- for manual cleaning of all areas and for manual dishwashing

PU: 10 kg can, 200 L drum, 1 L bottle (12 bottles/box)

Wardosal BMR forte

Industrial floor cleaner

- removes rubber abrasions
- highly effective against oils and greases
- low foaming

PU: 10 kg, 20 kg can, 220 kg drum, 1000 kg container

Lerapur® Supra Clean

Mild alkaline vehicle and workshop cleaner

- suitable for foaming or spaying applications
- oil, grease, road dirt and other persistent dirt is removed quickly, thoroughly and gently
- leaves visible shine after cleaning

PU: 10 kg can

Lerapur® ESP

Stainless steel care

- suitable for cleaning and maintenance of machines and equipment in all areas

PU: 500 ml spray bottle, 10 L can

Conveyor Belt Lubrication

BSM S

Special belt lubricant for cardboard packaging

- for wet and semi-dry application on plastic chains

PU: 30 kg can, 200 kg drum, 1000 kg container

BSM COX

Universal chain lubricant

- suitable for glass and PET bottles
- suitable for all water hardnesses

PU: 20 kg can, 200 kg drum, 1000 kg container

Dry lubricant

Please contact us for your special application.

Personal Hygiene

SEPTASAN

Mild washing lotion for the food industry, fragrance-free. Special skincare and active cleaning ingredients ensure gentle and hygienic hand cleansing. Dermatologically tested.

EU-Eco-Label: DE/030/055

PU: 1 L bottle (12 bottles/box), 10 kg can

Lerasept® HD*

Alcohol-based hand disinfectant with skincare components and a replenishment system to protect the hands and keep them supple – even in case of frequent use. The alcohol-based components of Lerasept® HD offer a wide-ranging action. 100% guaranteed bactericidal, fungicidal, and fully virucidal result after 30 seconds only.

Lerasept® HD is dermatologically tested by an independent institute and has been rated as being exceptionally kind to skin.

PU: 1 L bottle (12 bottles/box), 10 L can

SC Hautlotion 2-in-1

Combined, insoluble skin-protection and skincare lotion. SC 2-in-1 skin lotion absorbs quickly into the skin and is free from both fragrances and silicones. SC 2-in-1 skin lotion contains vitamin E and aloe vera to protect and regenerate the skin. Dermatologically tested.

PU: 100 ml tube (30 tubes /box),

1 L bottle (12 bottles/box)

Industrieverband Hygiene & Oberfläche = German Industry Association for Hygiene and Surfaces

*** USE BIOCIDAL PRODUCTS WITH CARE. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.**

Proper Hand Hygiene

1.
Remove all jewelry from your hands. Moisten hands with water.

2.
Thoroughly clean with 1 to 2 ml **SEPTASAN** washing lotion.

3.
Rinse **SEPTASAN** washing lotion carefully with water.

4.
Dry hands with a disposable towel.

5.
Disinfect with 2-3 ml **Lerasept® HD*** for 30 seconds.

Foam and Dosing Equipment

For the optimum application of our cleaning and disinfection products, we offer comprehensive technical equipment.

- Conveyor lubrication systems
- Dosing pumps
- Stationary and mobile foam cleaning equipment
- Measuring and control technology
- Wall dispensers
- Various dosing devices

Please contact us for more information.

This product overview is a special compilation for cleaning and disinfection in the milk processing industry.

We would be pleased to provide you with further information about our extensive product range.
