

Quality, food and feed safety, hygiene and product protection policy

The most important goal of all its managers and employees is to ensure that the quality of our flavour products continuously meets the needs defined and expected by our customers, as well as the relevant quality, food and feed safety, hygiene, and product protection legal requirements

The focus of the Company's Policy is our customers who buy our products, therefore, the most important goal for **STOCKMEIER FOOD KFT** maintaining or increasing its market position within the limits of ethical business conduct. We pay special attention to maintaining fair business relationships with excipient and packaging material suppliers, requiring their traceability.

To strengthen the trust and satisfaction of our customers and our reputation, we have defined our goals as follows:

- Safe and legal product production.
- We are dedicated to complying with the standards requirements of FSSC 22000, ISO 9001, HALAL, and KOSHER systems and fulfilling legislation and customer requirements, which provides a framework for setting, checking, and core implementation and inspection of FOOD SAFETY goals.
- We are committed to continuously developing our food safety system, working environment, technological conditions, and expertise, which develops and strengthens our necessary preparation.
- Accurate regulation and regular inspection and validation of internal work processes and external subcontractor work.
- Increasing the availability of our products in all the channels we target.
- Increasing the customer satisfaction of our customers.
- Effective handling of the complaints, and we strive for adequate and satisfactory communication both within the company and with external partners.

STOCKMEIER FOOD KFT its mission is to actively contribute to the development of the Hungarian flavour industry with its own tools, expertise and developments.
