

STOCKMEIER GROUP Transport Requirements

It is of key importance for the STOCKMEIER Group to ensure the safe transport and handling of its products, in full compliance with regulations and industry best practices.

For this reason, the STOCKMEIER GROUP require full compliance with the transport regulations (national & European law) and guidelines of the CEFIC (The European Chemical Industry Council) and VCI (Verband der chemischen Industrie) by all suppliers and transport partners.

Further and more detailed information relating chemical transport operations and requirements can be found in the web link below:
